8. Expected learn	ing outcomes of the program
Knowledge	
1a-	Collecting and analyzing the results of financial statements and interpreting them to assist in decision making
2a-	The ability to make sound decisions in light of analyzing and interpreting those results

3a-	Recognizing and understanding the importance
	of accounting standards as inputs to writing
	reports
4a-	
	Linking the analysis and interpretation of the
	results of the financial statements to the
	administrative decisions based on them and the
	needs of society for the purpose of growth and
	development.
	·
5a-	Increasing understanding and knowledge
	through studying science and other knowledge
Skills	amough oldaying colonics and care knowledge
1B-	Accounting analysis, classification and
	classification skills
2B-	Use various techniques required by knowledge
	of current curricula
3B-	Writing research, reports, and graduation
	projects on various accounting, financial, and
	administrative topics
Ethics	
1C-	Linking the results of study topics to the
	reasons for their occurrence through accounting
	analyses

2C-	Skills in analyzing computer programs and accounting data entry programs
3C-	How to deal with international accounting standards and implement them locally
4C-	Criticism of administrative, financial and economic theories and their interpretation

#### 9. Teaching and Learning Strategies

- Cooperative education
- Numbered heads
- The flipped classroom
- Gradual activities
- SCAMPER strategy

#### 10. Evaluation methods

- 1-Conducting periodic and surprise exams according to the department's plan
- 2-Review previous topics through in-class discussions before addressing new topics

## **Professional Development**

#### Mentoring new faculty members

This is done through reviewed strategic plans, especially in order to control teaching and learning mechanisms and strategies for teaching methods according to blended education..

# Professional development of faculty members

Plan and arrangements for the academic and professional development of faculty members, such as teaching and learning strategies by involving them in human resources development courses, which include five courses supervised by the Department of Studies, Planning and Follow-up, including - Administrative Skills Course – Self–Skills Course – Electronic Governance Skills Course – Legal Skills Course Financial Skills Course As well as the courses on modern teaching methods approved by our honorable ministry, adopting modern, interactive and integrated education as a curriculum for our dear university. As for evaluating learning outcomes, this is done through continuous interviews and the results of questionnaires that are distributed to students, as well as conducting field surveys of the teachers' outputs and productions. for The As development professional, etc., is evaluated through performance evaluation forms and through the rate of promotions offered within his tenure and the extent of their success...

#### 12. Acceptance Criterion

Establishing regulations related to admission to the college or institute. The standard to be followed is the student's GPA, but it is preferable to take into consideration the student's desire to choose and the impossibility of that in choosing a college, but at least this should be taken into account when choosing between departments because the matter is very important and the student's entire future depends on it.

# 13. The most important sources of information about the program

- 1-Methodological books, laws and constitutions
- 2- Books written by department teachers
- 3- Theses, dissertations, and local and foreign periodicals

# 14. Program Development Plan

- Updating the curricula to be 02 in accordance with the controls of the cognitive environment
- Reading and analyzing external scientific sources, theses, and authored books
- Writing the report and research on the course at the end of each study subject

# Intermediate Accounting 1

2024

#### **Course Description Form**

1. Course Name:

Intermediate Accounting 1

2. Course Code:

**AD2101** 

3. Semester / Year

((The first / 2))

4. Description Preparation Date:

16 /3 /2024

5. Available Attendance Forms:

(weekly attendance)

6. Number of Credit Hours (Total) / Number of Units (Total)

75 hours / (4 units)

7. Course administrator's name (mention all, if more than one name)

Assistant Professor Ali Mahmoud Hassan:alimahmood89888@gmail.com

8. Course Objectives

#### **Course Objectives**

As illustrated below .

At the end of the course, the student will be able to understand the reporting conceptual framework, income statement, record adjustments, debtors, and processing the bank account reconciliation statement.

#### Special (Behavioral) goals //

At the end of the course, the student will be able to identify the optimal ways to compare the characteristics of accounting information

- 2- At the end of the course, the student will be able to distinguish between accounting assumptions and accounting principles
- 3- At the end of the course, the student will be able to identify the elements of financial statements.
- 4- At the end of the course, the student will be able to measure record adjustments at the end of the period
- 5- At the end of the course, the student will be able to make a reconciliation statement for the bank account
- 6- At the end of the course, the student will be able to analyze the ages of debtors and make the required allocations.
- 7- At the end of the course, the student will be able to differentiate between the final financial statements

#### 9. Teaching and Learning Strategies

#### **Strategy**

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy
- Project strategy
- A strategy for problem solving or problem-based learning
- Story strategy
- Combining different strategies

#### 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-	5	Understanding and assimilation	Know the characteristics of accounting information, assumptions, and accounting principles	Brainstorming strategy	Oral and written Examination
2-	5	Understanding and assimilation	Elements of financial items for the income statement	Teamwork strategy.	Oral and written Examination

3-	5	Understanding and assimilation	Forms of preparing an income statement	Project strategy	Oral and written  Examination
4-	5	Understanding and assimilation	Concept and disclosure of retained earnings	Discussion strategy	Oral and written Examination
5-	5	Understanding and assimilation	Define the concept of advances and accruals	Story strategy	Oral and written Examination
6-	5	Understanding and assimilation	Explain the accounting treatment of advances and accruals	Problem solving strategy	Oral and written Examination
7-	5	Understanding and assimilation	Reasons for preparing settlement entries	Modeling learning strategy	Oral and written Examination
8-	5	Understanding and assimilation	. Introduction to the bank account reconciliation statemen	Teamwork strategy.	Oral and written Examination
9-	5	Understanding and assimilation	Determine the reasons for non- matching of the bank statement	Combining different strategies	Oral and written Examination
10-	5	Understanding and assimilation	Explaining the reconciliation restrictions associated with the conformity statement	Combining different strategies	Oral and written Examination
11-	5	Understanding and assimilation	Preparing a conformity statement	Combining different strategies	Oral and written Examination
12-	5	Understanding and assimilation	Defining the concept of debtors, its types and accounting treatments	Teamwork strategy.	Oral and written Examination
13-	5	Understanding and assimilation	Evaluating the debtors account and explaining the concept of bad debts	Project strategy	Oral and written Examination
14-	5	Understanding and assimilation	Accounting treatment of bad debts and doubtful debts	Combining different strategies	Oral and written Examination
15-	5	Understanding and assimilation	Allowed discount	Combining different strategies	Oral and written Examination

#### 11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports .... etc.

Daily Preparation	Daily Exam	Oral Exam	Report	Monthly Exam	Written Exam	Tota I
5	5	5	5	10	70	100

## 12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Nothing
Main references (sources)	Intermediate financial accounting A.M. Dahkim Hamoud, A.M.D. Bushra Al-Taie 2. Intermediate accounting Donald Kieso
Recommended books and references (scientific journals, reports)	Graduation projects of Accounting Department students, scientific journals and periodicals related to the subject
References, Websites	Browse the Google network using the desired subject key.

## **Principles of business administration**

2024

#### **Course Description Form**

#### 1. Course Name:

#### Principles of business administration

#### 2. Course Code:

#### AD 1102

#### 3. Semester / Year

#### First / First

#### 4. Description Preparation Date:

#### 16 /3 /2024

#### 5. Available Attendance Forms:

Weekly attendance

# 6. Number of Credit Hours (Total) / Number of Units (Total)

(30 Hr. / 2 Unit)

7. Course administrator's name (mention all, if more than one name)

Name: Assist. Prof. Dr. Fadhil Jameel Tahir

Email: fadhil.j.taher@mauc.edu.iq

#### 8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goals //

- 1- Introducing the concept of management and manager.
- 2- Definition of the administrative process and the functions of the manager.
- 3– Familiarity with the theories and schools that contributed to the development of management.

**Principles of Economics** 

2. Course Code:

**AD1103** 

3. Semester / Year

(First semester , First Year )

4. Description Preparation Date:

19 /3 /2024

5. Available Attendance Forms:

Weekly attendance

6. Number of Credit Hours (Total) / Number of Units (Total)

(30 Hr. / 2 Unit )

7. Course administrator's name (mention all, if more than one name)

Name: Teaching assistant. SHELLAN KATHOM SOZA

Email: Shellan.kathom93@gmail.com

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

At the end of the course, the student will be able to know what accounting is, the business environment, the basic functions of accounting, and the users of accounting information.....

Specific (Behavioral) goals //

- 1– At the end of the course, the student will be able to understand the motives behind economic actions and predict them through analyzing psychological factors.
- 2- At the end of the course, the student will be able to deal with the decrease and increase in capital
- 3- At the end of the course, the student will be able to know how to deal with both purchasing and sales operations

#### 9. Teaching and Learning Strategies

#### **Strategy**

**Brainstorming strategy** 

Modeling learning strategy

Group work or cooperative learning strategy

Discussion strategy

**Project strategy** 

A strategy for problem solving or problem-based learnin Story strategy.

Combining different strategies

#### 10. Course Structure

V	Veek Hours Required Learning Outcomes			Unit or subject name	Learning method	Evaluation method
	1-	3	Understanding and assimilation	Economics	Brainstorming strategy	Oral and written Examination
	2-	3	Understanding and assimilation	The economic problem	Teamwork strategy.	Oral and written Examination
	3-	3	Understanding and assimilation	Demand theory	Project strategy	Oral and written Examination
	4-	3	Understanding and assimilation	Elasticities of demand	Discussion strategy	Oral and written Examination
	5-	3	Understanding and assimilation	Classical theory Benefit	Story strategy	Oral and written Examination
	6-	3	Understanding and assimilation	Modern theory	Problem solving strategy	Oral and written  Examination

7-	3	Understanding	Supply theory	Modeling learning	Oral and written
/-		and assimilation	Supply theory	strategy	Examination
8-	3	Understanding	Production theory	To a service di catacata a co	Oral and written
8-		and assimilation	Production theory	Teamwork strategy.	Examination
9-	3	Understanding	Costs and revenues	Combining different	Oral and written
9-		and assimilation	Statements	strategies	Examination
10-	3	Understanding	Markets	Combining different	Oral and written
10-		and assimilation	iviai nets	strategies	Examination
11-	3	Understanding	Distribution theory	Combining different	Oral and written
11-		and assimilation	Distribution triedry	strategies	Examination
12-	3	Understanding	National income	Teamwork strategy.	Oral and written
12-		and assimilation	rvational income	realitwork strategy.	Examination
13-	3	Understanding	Money and banks	Project strategy	Oral and written
13-		and assimilation	Worley and banks	Project strategy	Examination
14-	3	Understanding	Foreign trade	Combining different	Oral and written
14-		and assimilation	i oreign trade	strategies	Examination
15-	3	Understanding	Inflation	Combining different	Oral and written
15-	3	and assimilation	IIIIauon	strategies	Examination

#### 11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports .... etc.

Daily Preparation	Daily Exam	Oral Exam	Report	Monthly Exam	Written Exam	Tota I
5	5	5	5	10	70	100

## **Computer skills 1tion**

1. Course Name:

Computer skills 1

2. Course Code:

**Department of Accounting** 

3. Semester / Year

The first course / first stage

4. Description Preparation Date:

21 /3 /2024

5. Available Attendance Forms:

**Attendance - weekly system** 

6. Number of Credit Hours (Total) / Number of Units (Total)

30 theoretical hours - 30 practical hours / per course / (2 units)

7. Course administrator's name (mention all, if more than one name)

Name: Dr. Mustafa Faleh

Email: mustafa. faleh@mauc.edu.iq

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

The student must be familiar with the basic rules for dealing with and managing a computer to help him complete projects, print matters, prepare statistics and graphs, create presentations, design engineering plans, etc

Special (Behavioral) goals //

- 1-Giving students a basic idea of computer components and the basic principles of computer science.
- 2- The possibility of benefiting from it in the field of scientific research in nursing, medicine, accounting and engineering.
- 3- In this course, the student is taught through theoretical and practical lectures how to use the computer and access electronic programs.

#### 9. Teaching and Learning Strategies

#### **Strategy**

- Learning strategy and identifying computer components
- Strategy for learning and identifying programs for drawings, pictures and shapes
- Learning strategy and getting acquainted with the use of basic computer programs
- The strategy of using computer programs for scientific purposes.
- The strategy of using ports in preserving and archiving scientific programs.
- Strategy for using the computer to schedule lectures.

6. Number of Credit Hours (Total) / Number of Units (Total)

(30 Hr. / 2 Unit )

7. Course administrator's name (mention all, if more than one name)

Name: Assist. Prof. Dr. Ayad Enad Khalaf

Email: ayad.khalaf@mauc.edu.iq

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goals //

- Develop their intellectual, personal and professional abilities.
- Acquire basic language skills (listening, speaking, reading and writing) in order to communicate with speakers of English language.
- Acquire the linguistic competence necessarily required in various life situations.
- Develop their awareness of the importance of English as a means of international communication.

- Develop the linguistic competence that enables them, in future,
   to present and explain the accounting concepts and issues.
- Acquire the linguistic bases that enable them to participate in transferring the scientific and technological advances of other nations to their nation.

#### Special (Behavioral) goals //

- 1- At the end of the course, the student will be able to introduce himself to others in English.
- 2- Be able to recognize the types of simple and complex sentences in the English language.
- 3- Be able to distinguish between nominal sentences and verbal sentences.
- 4- Be able to use subject, object, and possessive pronouns correctly.
- 5- Be able to use legal terminology correctly.
- 6- Be able to use auxiliary verbs correctly in negative sentences or make a regular question and a follow-up question.
- 7- Be able to distinguish between correct and incorrect sentences.
- 8- Be able to pronounce words correctly.
- 9- Be able to read to understand English written material.
- 10- Have the ability to correctly write a short guided paragraph.

#### 9. Teaching and Learning Strategies

## **Course Description**

Computer skills 2

1. Course Name:

Computer skills 2

2. Course Code:

**AD1204** 

3. Semester / Year

The Second course / first stage

4. Description Preparation Date:

21 /3 /2024

5. Available Attendance Forms:

**Attendance - weekly system** 

6. Number of Credit Hours (Total) / Number of Units (Total)

30 theoretical hours - 30 practical hours / per course / (2 units)

7. Course administrator's name (mention all, if more than one name)

Name: Dr. Mustafa Faleh

Email: mustafa. faleh@mauc.edu.iq

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

This course includes a careful study of the program and its general application within government institutions and the private sector, as it facilitates those working on the Microsoft Excel program to produce profit, loss and interest results, as well as saving statistical data and linking with the rest of the institutions and departments with an accurate electronic system without referring to paper files.

#### Special (Behavioral) goals //

- 1- Training on using Excel
- 2- Learn about using Excel in building accounting tables.
- 3- Explaining the procedures for calculating mathematical and logical formulas.
- 4- Analysis of accounting tables.
- 5- Profit and loss accounts.

#### 9. Teaching and Learning Strategies

#### **Strategy**

- Strategy for identifying computer capabilities and applications
- Strategy for identifying the capabilities of Excel
- Strategy for solving mathematical and logical formulas.
- Strategy for creating sales, profit and loss reports.
- Payroll reporting strategy
- A strategy for developing students' abilities to use Excel in solving

Accounting equations

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-	2	Concept and goals	Introduction to Excel	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly
2-	2	Working with the program interface	File tab	Theoretical/practical	Theoretical exam,

					practical exam, reports, exams, monthly exam
3-	2	Working with tabs	Home tab	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly
4-	2	Building a simple table	Rows, columns and cells	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly exam
5-	2	Format a table	Format cells	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly
6-	2	dealing with tables	Move, copy, delete and arrange	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly

7-	2	Insert charts	Creating charts and their types	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly
8-	2	Evaluation	Monthly exam	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly exam
9-	2	Dealing with charts	Transfer, copy and develop Charts	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly
10-	2	Dealing with formulas	Formulas Sum and Average	Theoretical/practical	Theoretical exam, practical exam, reports, exams, monthly exam
11-	2	Dealing with formulas	The lowest and highest value	Theoretical/practical	Theoretical exam, practical exam, reports, exams,

					monthly
					exam
		Dealing with			Theoretical
		formulas			exam,
		IOITTIUIAS			practical
12-	2		Profits and net salaries	Theoretical/practical	exam,

			field of computers	

## **English Language 1**

2024

1. Course Name:

**English Language 1** 

2. Course Code:

**AD 1106** 

3. Semester / Year

First/ First

4. Description Preparation Date:

16 /3 /2024

5. Available Attendance Forms:

Weekly attendance

6. Number of Credit Hours (Total) / Number of Units (Total)

(30 Hr. / 2 Unit )

7. Course administrator's name (mention all, if more than one name)

Name: Assist. Prof. Dr. Ayad Enad Khalaf

Email: ayad.khalaf@mauc.edu.iq

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goals //

- Develop their intellectual, personal and professional abilities.
- Acquire basic language skills (listening, speaking, reading and writing) in order to communicate with speakers of English language.
- Acquire the linguistic competence necessarily required in various life situations.
- Develop their awareness of the importance of English as a means of international communication.

- Develop the linguistic competence that enables them, in future,
   to present and explain the accounting concepts and issues.
- Acquire the linguistic bases that enable them to participate in transferring the scientific and technological advances of other nations to their nation.

#### Special (Behavioral) goals //

- 1- At the end of the course, the student will be able to introduce himself to others in English.
- 2- Be able to recognize the types of simple and complex sentences in the English language.
- 3- Be able to distinguish between nominal sentences and verbal sentences.
- 4- Be able to use subject, object, and possessive pronouns correctly.
- 5- Be able to use legal terminology correctly.
- 6- Be able to use auxiliary verbs correctly in negative sentences or make a regular question and a follow-up question.
- 7- Be able to distinguish between correct and incorrect sentences.
- 8- Be able to pronounce words correctly.
- 9- Be able to read to understand English written material.
- 10- Have the ability to correctly write a short guided paragraph.

#### 9. Teaching and Learning Strategies

#### **Strategy**

Brainstorming strategy

Modeling learning strategy

Group work or cooperative learning strategy

Discussion strategy

Project strategy

A strategy for problem solving or problem-based learnin Story strategy.

Combining different strategies

## **Financial Accounting**

#### 1. Course Name:

Financial Accounting 1

2. Course Code:

#### AD1201

3. Semester / Year

((The 2 / The first))

4. Description Preparation Date:

#### 16 /3 /2024

5. Available Attendance Forms:

(weekly attendance)

6. Number of Credit Hours (Total) / Number of Units (Total)

75 hours / (4 units)

7. Course administrator's name (mention all, if more than one name)

Assistant Professor Ali Mahmoud Hassan:alimahmood89888@gmail.com

8. Course Objectives

#### **Course Objectives**

As illustrated below .

Introducing the student to fixed assets, their disappearance, buying, selling and replacing them. The student is also introduced through this course to the final accounts and the most important financial statements

#### Special (Behavioral) goals //

- 1- At the end of the course, the student will be able to become familiar with the concepts and nature of financial accounts
- 2- At the end of the course, the student will be able to set up a trading account

- 3- At the end of the course, the student will be able to prepare a profit and loss account
- 4- At the end of the course, the student will be able to list the financial position
- 5- The student will learn to calculate extinction and methods for recording it
- 6- At the end of the course, the student will be able to know the cases of registering the sale of fixed assets
- 7- At the end of the course, the student will be familiar with cases of replacing similar fixed assets

#### 9. Teaching and Learning Strategies

#### **Strategy**

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy
- Project strategy
- A strategy for problem solving or problem-based learning
- Story strategy
- Combining different strategies

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-	5	Understanding and assimilation	Learn about the concept of fixed assets	Brainstorming strategy	Oral and written Examination
2-	5	Understanding and assimilation	Learn how to calculate extinction	Teamwork strategy.	Oral and written Examination
3-	5	Understanding and assimilation	Fixed installment method	Project strategy	Oral and written Examination
4-	5	Understanding and assimilation	Diminishing installment method	Discussion strategy	Oral and written Examination
5-	5	Understanding and assimilation	Cases of substitution of similar and dissimilar entities	Story strategy	Oral and written Examination

6-	5	Understanding and assimilation	Explanation of the concept and types of accounting errors	Problem solving strategy	Oral and written Examination
7-	5	Understanding and assimilation	Determine accounting treatments to correct errors	Modeling learning strategy	Oral and written  Examination
8-	5	Understanding and assimilation	Preparing settlement entries	Teamwork strategy.	Oral and written Examination
9-	5	Understanding and assimilation	Preparing the trial balance	Combining different strategies	Oral and written Examination
10-	5	Understanding and assimilation	Statement of retained earnings	Combining different strategies	Oral and written Examination
11-	5	Understanding and assimilation	Cases of disposal of arrest papers	Combining different strategies	Oral and written Examination
12-	5	Understanding and assimilation	The direct way to correct errors	Teamwork strategy.	Oral and written Examination
13-	5	Understanding and assimilation	The indirect method of correcting errors	Project strategy	Oral and written Examination
14-	5	Understanding and assimilation	Dues	Combining different strategies	Oral and written Examination
15-	5	Understanding Introductions and assimilation		Combining different strategies	Oral and written Examination

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports .... etc.

## Accounting in English

1. Course Name:

Accounting in English 1

2. Course Code:

**AD2106** 

3. Semester / Year

(First semester, second Year)

4. Description Preparation Date:

20/3 /2024

5. Available Attendance Forms:

Weekly attendance

6. Number of Credit Hours (Total) / Number of Units (Total)

(60Hr. / 3 Unit

7. Course administrator's name (mention all, if more than one name)

Name: A.S SHAIMA HASHEM MOHMMED Email: **shaima.hashem@mauc.edu.iq** 

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

- 1- Study some accounting topics in English, especially topics related to intermediate accounting.
- 2- Preparing the student and increasing his abilities in reading and understanding other accounting books in the English language.

#### Specific (Behavioral) goals //

1– At the end of the course, the student will be able to recognize terms in English.

2- At the end of the course, the student will be able to know the financial statements in English

#### 9. Teaching and Learning Strategies

#### **Strategy**

Brainstorming strategy

Modeling learning strategy

Group work or cooperative learning strategy

Discussion strategy

Project strategy

A strategy for problem solving or problem-based learning

Story strategy.

Combining different strategies

Week	Hours	Required Learning Outcomes	Unit or subject name Learning method		Evaluation method
1-	3	Understanding and assimilation	The theoretical framework of accounting Finance	Brainstorming strategy	Oral and written Examination
2-	3	Understanding and assimilation	Basic elements of the framework The theory of functional accounting (principles, assumptions, and restrictions)	Teamwork strategy.	Oral and written Examination
3-	3	Understanding and assimilation	Basic elements of the framework Theoretical approach to functional accounting (elements of financial statements, and qualitative characteristics of accounting information)	Project strategy	Oral and written Examination
4-	3	Understanding and assimilation	The purpose of the financial report, who uses the accounting information, for what reason	Discussion strategy	Oral and written Examination
5-	3	Understanding and assimilation	Purchases and sales accounting	Story strategy	Oral and written  Examination
6-	3	Understanding and assimilation	Applications Problem solving strategy		Oral and written Examination

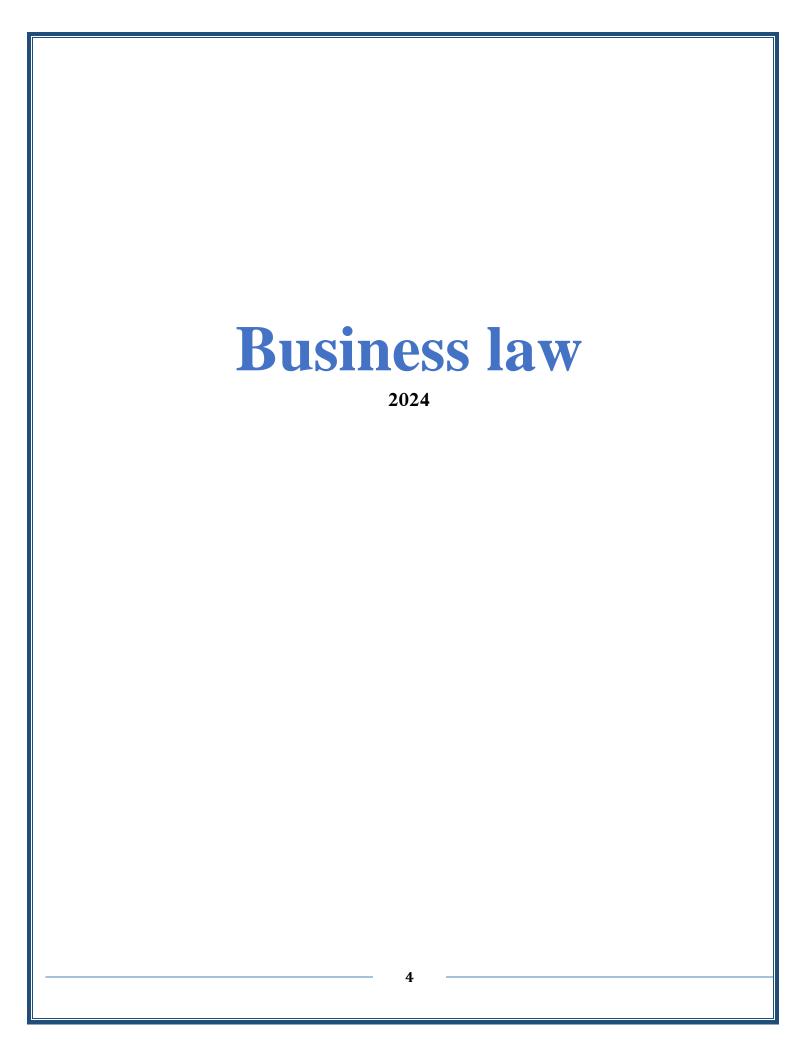

7-	3	Understanding	Accounting business notes	Modeling learning		Oral and written
'-	3	and assimilation		strategy	Examination	
8-	3	Understanding	Applications	Teamwork strategy.	Oral and written	
8-		and assimilation			Examination

As illustrated below .

### General goal //

At the end of the course, the student will be able to know the science of public finance and understand public needs, private needs, and the role of the state in public finance

### Specific (Behavioral) goals //

1- At the end of the course, the student will be able to understand public expenditures, public revenues, and the concept of the public budget

2- At the end of the course, the student will be able to explain taxes, their types, and their economic effects

### 69. Teaching and Learning Strategies

### **Strategy**

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy
- Project strategy
- A strategy for problem solving or problem-based learning
- Story strategy.
- Combining different strategies

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-	2	Understanding	General needs General needs	Theoretical	Oral and written
1	<b>2</b>	and assimilation	General needs General needs	medical	Examination

### Course Description Guide Operations research

1. Course Name:

**Processes Design** 

2. Course Code:

**MEME 3105** 

3. Semester / Year

(First semester, third Year)

4. Description Preparation Date:

16 /3 /2024

5. Available Attendance Forms:

Weekly attendance

6. Number of Credit Hours (Total) / Number of Units (Total)

(45 Hr. / 2 Unit)

7. Course administrator's name (mention all, if more than one name)

Name: Assistant prof. Dr. Ammar kuti Nasser

Email: drammar1688@gmail.com

8. Course Objectives

**Course Objectives** 

As illustrated below .

### General goal //

Introducing the student to the basic concepts in operations research and their relationship to other sciences and the extent of their benefit in the applied field, and applying equations and inequalities in the applied field after finding solutions to them, and arriving at the optimal solutions and beyond the optimal solution for all mathematical relationships, as well as preparing the student to address issues affecting production management, marketing. , storage, project planning and tracking their implementation, competition strategies, waiting and simulation issues,

distribution, transportation, replacing equipment,...with the aim of finding optimal solutions to them through the use of quantitative methods in operations research as well as providing students with the skills and methods necessary to solve different types of problems. Operations research issues that qualify them to work after graduation in companies, factories, and various state departments to contribute to decision—making regarding procedures for various jobs.

### Special (Behavioral) goals //

- 1– At the end of the course, the student will be able to identify methods for optimal solutions to operations research problems.
- 2- At the end of the course, the student will be able to distinguish between methods of using operations research.
- 3- At the end of the course, the student will be able to determine the specific criteria for efficient and optimal design.
- 4- At the end of the course, the student will be able to make the connection between mathematical and statistical concepts and models and some related financial topics.
- 5- At the end of the course, the student will be able to study topics related to how decisions are made in an organized scientific manner by using some different mathematical and statistical models that address different aspects of the decision.

### 9. Teaching and Learning Strategies

### **Strategy**

**Brainstorming strategy** 

Modeling learning strategy

Group work or cooperative learning strategy

Discussion strategy

Project strategy

A strategy for problem solving or problem-based learning Story strategy.

Combining different strategies

(Weekly attendance)

- 6. Number of study hours (total)/number of units (total)
- 7 (4unit\ 5 hours)
  - 7. Name of the course administrator (if more than one name is mentioned)

Name: M.D. Abbas Kamel Karim: Email::abbas.k.k@mauc.edu.ig

8. Course objectives

#### As shown below

Objectives of the study subject

General objecat:-. At the end of the course, the student will be able to employ cost calculation techniques to help decision makers make rational decisions regarding knowing and reducing costs.

- // Behavioral goals:- 1- At the end of the course, the student will be able to identify the reasons and circumstances that led to the emergence of cost accounting.
- 2 -At the end of the course, the student will be able to know what cost accounting is and the goals it seeks to achieve
- 3 -At the end of the course, the student will be able to know the areas in which cost accounting is used.
- 4 -At the end of the course, the student will be able to know the nature of the relationships in which cost accounting interacts and deals with various accounting systems and other sciences.

5 -At the end of the course, the student will be able to differentiate between cost, expense, loss, and expense....

At the end of the course, the student will be able to know the methods used to calculate the pricing of materials inventory at the end of the fiscal year, as well as direct wages and indirect industrial costs.

#### 9. Teaching and learning strategies

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy

8. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

Teaching the student the skills of dealing with various cases related to companies of all types.

Skills in identifying problems related to companies, analyzing their causes, and providing solutions.

Skills to keep up with developments and what legal changes, legislation or business technologies impose.

Skills to determine the reasons for liquidation, withdrawal or joining.

#### Specific (Behavioral) goals //

- 1- At the end of the course, the student will be able to identify the types of companies.
- 2- At the end of the course, the student will be able to distinguish between joint-stock companies and joint-stock companies
- 3-Understanding the nature of corporate accounting work -
- 4-Distinguishing between the basic characteristics of joint-stock companies and joint-stock companies -
- 5- Knowledge of companies' accounting treatments -
- 6-Focus on accounting treatments for joint liability companies.
- 7-Focus on accounting treatments for joint-stock companies

73. Course Name:

Analysis of financial statements in English

74. Course Code:

AD3105

75. Semester / Year

(First semester , third Year )

**76.** Description Preparation Date:

20/3 /2024

77. Available Attendance Forms:

Weekly attendance

78. Number of Credit Hours (Total) / Number of Units (Total)

(45Hr. /3 Unit)

79. Course administrator's name (mention all, if more than one name)

Name: Teaching assistant SHAIMA HASHEM MOHAMED Email: **shaima.hashem@mauc.edu.iq** 

80. Course Objectives

#### **Course Objectives**

As illustrated below .

#### General goal //

- 1. Enabling the student to know the components of financial statements and their development
- 2. Knowledge of the intellectual framework of financial reporting
- 3. Enable the student to understand the structure of financial statements

#### Specific (Behavioral) goals //

1- At the end of the course, the student will be able to identify the best ways to analyze financial statements.

- 2- At the end of the course, the student will be able to distinguish between the appropriate methods for analyzing these lists
- 3- At the end of the course, the student will be able to assign the correct credits to each list.

#### 81. Teaching and Learning Strategies

#### **Strategy**

**Brainstorming strategy** 

Modeling learning strategy

Group work or cooperative learning strategy

Discussion strategy

Project strategy

A strategy for problem solving or problem-based learning

Story strategy.

Combining different strategies

#### 82. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	ct name Learning method	
1-	3	Understanding and assimilation	Overview of Financial Statement Analysis – Types of Financial Analysis	Brainstorming strategy	Oral and written Examination
2-	3	Understanding and assimilation	Analysis tools	Teamwork strategy.	Oral and written Examination
3-	3	Understanding and assimilation	Cash flow analysis – cash flow statement – (special and direct method)	Project strategy	Oral and written  Examination
4-	3	Understanding and assimilation	Analysis of operating activities	Discussion strategy	Oral and written Examination
5-	3	Understanding and assimilation	Analysis of investment activities	Story strategy	Oral and written Examination
6-	3	Understanding and assimilation	Analysis of financing activities	Problem solving strategy	Oral and written Examination

# Course Description Guide Unified accounting system 2

2024

### **Course Description Form**

### 85. Course Name:

Unified accounting system 2

86. Course Code:

**AD3203** 

87. Semester / Year

(second semester, third Year)

88. Description Preparation Date:

16 /3 /2024

89. Available Attendance Forms:

Weekly attendance

90. Number of Credit Hours (Total) / Number of Units (Total)

(60 Hr. / 3 Unit)

91. Course administrator's name (mention all, if more than one name)

Name: M.M. Al-Hussein Jawad Kazem Email: alhussien.jwad@mauc.edu.iq

92. Course Objectives

### **Course Objectives**

As illustrated below .

### General goal //

The student will be able to have initial knowledge of the unified accounting system by explaining the restrictive treatments (practical examples) for resource accounts and monitoring production and service centers. To assist in classifying and compiling data in a way that serves the accountant's requirements, as well as providing mechanisms and requirements that serve the follow–up of those responsible in management regarding financial transactions related to the economic situation.

### Specific (Behavioral) goals //

- 1- The student will be able to learn about the accounts, tabulate the accounting manual, and be introduced to how to process the accounts in the unified accounting system.
- 2- The student will be able to prepare to work in the economic units in the Accounts Department or the Finance Department

### 93. Teaching and Learning Strategies

### **Strategy**

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy
- Project strategy
- A strategy for problem solving or problem-based learning
- Story strategy.
- Combining different strategies

56. Course objectives

### As shown below

Objectives of the study subject

General objecat:- At the end of the course, the student will be able to use cost techniques in calculating production costs and provide the necessary data to decision makers to make rational decisions or reduce costs.

// Behavioral goals

1- At the end of the course, the student will be able to identify the characteristics, components and costs of agricultural activities

- 2 -At the end of the course, the student will be able to differentiate between calculating the costs of human labor and mechanical and animal labor
- 3 -At the end of the course, the student will be able to identify the necessary materials used in agricultural activity.
- 4 -At the end of the course, the student will be able to prepare registration adjustments for agricultural activities
- 5 -At the end of the course, the student will be able to employ cost-effective techniques used in agricultural activities....
- 6- At the end of the course, the student will be able to distinguish the costs of plant activity from the costs of animal activity

### 57. Teaching and learning strategies

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy

### International auditing standards

### **Course Description Form**

### 1. Course Name:

International auditing standards

2. Course Code:

**AD4103** 

3. Semester / Year

(the second semester, four Year)

4. Description Preparation Date:

20 /3 /2024

5. Available Attendance Forms:

Weekly attendance

6. Number of Credit Hours (Total) / Number of Units (Total)

(30 Hr. / 2 Unit)

7. Course administrator's name (mention all, if more than one name)

Name: Teaching assistant. SHELLAN KATHOM SOZA

Email: Shellan.kathom93@gmail.com

8. Course Objectives

### **Course Objectives**

As illustrated below .

### General goal //

At the end of the course, the student will be able to know and be familiar with the basic international auditing standards of the International Federation of Accountants. It includes studying international auditing standards related to topics such as: responsibilities, planning, internal control, evidentiary evidence, audit results and reports, specialized fields, related services, international data............

### Specific (Behavioral) goals //

- 1- Identify the standards associated with the auditing stages, process auditing, control examination, analytical procedures, and detailed examination of operations.
- 2- Understanding audit procedures, which enables him to obtain a professional qualification as an auditor and is considered a new entry point for the student after he has learned about accounting to develop the auditing skill.
- 3- Trying to understand the importance of proofs and evidence and learning how to collect them, their types and uses, then addressing the reports and linking them to the results of the evidence.
- 4- Understand and know the role of the internal control system and its auditing process

### 9. Teaching and Learning Strategies

### **Strategy**

Brainstorming strategy

Modeling learning strategy

Group work or cooperative learning strategy

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1-	3	Understanding and assimilation	History of accounting and its development	Brainstorming strategy	Oral and written Examination
2-	3	Understanding and assimilation	The nature of accounting and its uses	Teamwork strategy.	Oral and written Examination
3-	3	Understanding and assimilation	The need to build an accounting theory	Project strategy	Oral and written Examination
4-	3	Understanding and assimilation	Traditional approaches to theory building	Discussion strategy	Oral and written Examination
5-	3	Understanding and assimilation	The authoritarian approach to theory building	Story strategy	Oral and written Examination
6-	3	Understanding and assimilation	Conceptual framework of accounting – objectives and concepts	Problem solving strategy	Oral and written Examination
7-	3	Understanding and assimilation	Conceptual framework of accounting – assumptions and principles	Modeling learning strategy	Oral and written Examination
8-	3	Understanding and assimilation	Review exercises	Teamwork strategy.	Oral and written Examination
9-	3	Understanding and assimilation	The behavioral approach to theory building	Combining different strategies	Oral and written Examination
10-	3	Understanding and assimilation	Introduction to events to build theory	Combining different strategies	Oral and written Examination
11-	3	Understanding and assimilation	Basis of accounting measurement	Combining different strategies	Oral and written Examination
12-	3	Understanding and assimilation	Basis of accounting measurement	Teamwork strategy.	Oral and written Examination

13-	3	Understanding and assimilation	Alternatives to accounting measurement	Project strategy	Oral and written Examination
14-	3	Understanding	Review exercises	Combining different	Oral and written
14-   3	and assimilation	TREVIEW EXCICISES	strategies	Examination	

#### 11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports .... etc.

Daily Preparation	Daily Exam	Oral Exam	Report	Monthly Exam	Written Exam	Tota I
5	5	5	5	10	70	100
	l.		I			

# 12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Nothing
recommended books and references	1. Accounting Theory - Ahmed Belkawi
(scientific journals, reports)	2. Accounting Theory - Abbas Mahdi Al-Shirazi
Electronic References, Websites	Nothing

.

# Specialized accounting systems

2024

#### 81. Teaching and learning strategies

- Brainstorming strategy
- Modeling learning strategy
- Group work or cooperative learning strategy
- Discussion strategy
- Project strategy
- A strategy for problem solving or problem-based learning

The strate gy

- Story strategy
- Combining different strategies

#### 82. Course structure

W	hours	Fadhilj.Taher@mau c.edu.iq	Name of the unit or topic	Learning method	Evaluation method
	5	Understanding and comprehension	Agricultural activity and its types	Brainstorming strategy	Oral and written examination
	5	Understanding and comprehension	Characteristics of agricultural activity and their accounting reflection	Teamwork strategy.	Oral and written examination
	5	Understanding and comprehension	Agricultural cost accounting	Project strategy	Oral and written examination
	5	Understanding and comprehension	Cost elements tab	Discussion strategy	Oral and written examination
	5	Understanding and comprehension	agricultural activity between the lessor and the lessee	Story strategy	Oral and written examination
	5	Understanding and comprehension	Human, mechanical and animal labour	Problem solving strategy	Oral and written examination
	5	Understanding and comprehension	Agricultural materials and accounting for them	Modeling learning strategy	Oral and written examination
	5	Understanding and comprehension	List of costs in agricultural activity	Teamwork strategy.	Oral and written examination
	5	Understanding and comprehension	Crop accounts	Combining different strategies	Oral and written examination
	5	Understanding and comprehension	Accounts of orchards and fruit gardens	Combining different strategies	Oral and written examination
	5	comprehension	Livestock accounts	strategies	Oral and written examination
	5	Understanding and comprehension	Breeding livestock	Teamwork strategy	Oral and written examination
	5	Understanding and comprehension	fattening cattle	Project strategy	Oral and written examination
	5	Understanding and comprehension	Work cattle	Combining different strategies	Oral and written examination
	5	Understanding and comprehension	Dairy cattle	Combining different strategies	Oral and written examination
